Website Notice:

In response to the recent outbreak of the coronavirus, we wanted to share the extra measures we have made internally to minimize any risk to customers and employees. We have implemented the following:

- We will double our hand sanitation before and after each service
- We will wear gloves during all services
- We will knock on the door and take 6-8 steps back for social distancing to inform our customers we have arrived for service
- As a reminder, on regular visits we only need to treat the exterior of the home to help prevent pests from entering. We will, however, treat the interior upon request and wear a face mask/respirator for any inside services provided.
- We sincerely hope that you and your family are safe during this time. If there is anything we can do to help please don't hesitate to reach out via text, email or phone.
